User Instructions:

1. The player will start at the menu with three options:
    a. Start New Game
        i. Starts a new Tic-Tac-Toe game
    b. See Records
        i. Displays the records for Players X and O
        ii. Includes wins, losses, and ties
    c. Settings
        i. Allows the user to change the board size
        ii. Allows the user to reset the records
2. When “Start New Game” is selected:
    a. An empty board will appear
    b. Player X is the first player and will start by choosing their first spot to place their X
    c. Player O is the second player and will select their spot next
    d. Players take turns selecting empty squares to place their symbols
    e. The game will end when either player wins or if there is a tie
    f. After the game ends, the result is displayed, and the records are updated
    g. The program returns to the main menu
3. When “See Records” is selected:
    a. The screen shows each player's wins, losses, and ties
    b. The records are viewable until they are reset in Settings
    c. After the records screen finishes displaying, the program returns to the main menu
4. When “Settings” is selected:
    a. Choose one of the following options:
        i. 3x3 Board: Changes the board to three rows and three columns
        ii. 4x4 Board: Changes the board to four rows and four columns
        iii. Reset Records: Resets both players’ wins, losses, and ties to zero
        iv. Back: Returns to the main menu
    b. The selected board size is used for the next games until changed later
5. Game Controls:
    a. The remote control is used to navigate the menus and play the game
        i. Up/Down: Move through menu options or move the selected square
        ii. Left/Right: Move the selected square horizontally during a game
        iii. Select: Choose a menu option or place the current player’s symbol
        iv. Stop: Leave the current game and return to the main menu
6. Ending a Game:

a. A game ends when Player X or Player O wins
b. The game can also end if the board is full and neither player wins
c. The result is displayed, and the players' records are updated
d. Pressing "Stop" during a game returns to the main menu without completing the game
